# **Quality Improvement Project: HTN Standardized Nurse Visit** Vaama Patel, MS3, Mamle Anim, MD, Ramona Langston, RN, Elisabeth L. Righter, MD, FAAFP

Wright State University Boonshoft School of Medicine; Department of Family Medicine

# Introduction

- Five Rivers Family Health Center (FRFHC), FQHC located in urban area of Northwest Dayton, OH, Clinical training site for Wright State University Family Medicine Residency, 10-10-10 program
- 16-month state-wide hypertension quality improvement project
- Procedure during a nurse visit may vary

Goal: Standardize nurse visit

### Plan

- Created an EPIC HTN Template for Nurse Visits using Hypertension Quality Improvement Project Packet
- Record BPs, lifestyle questions, education topics discussed, and changes in hypertension medication regimen
- Assess the efficacy and convenience of the template

**Aim Statem** Increase control of blood pressu recipients with uncontrolled hypertens 20% among African

#### Do

Nurse used the template
