Inclusive Interview Tips for LGBTQIA+ Patients

Did You Know?

Lesbian, Gay, Bisexual, Transgender, Queer, Intersex, Asexual, and all sexual and gender minority (LGBTQIA+) people often have a history of discriminatory care from health care providers.

Learn about the SAFE (Start with Yourself, Assume Diversity, Focus Your Questions, Explain Why) framework for inclusive interviewing to improve patient-provider interactions.

Capsules provide busy clinicians brief summaries of best practices that are ready to be implemented in clinical care.

News You Can Use

Latest ADA Standards of Care Provide Updated Screening Thresholds and Opportunities for Personalized Therapeutics

Currents provide brief summaries of the latest advances in medicine or clinical practice related to diabetes or hypertension and include links to additional resources.
