Remote Monitoring for Diabetes: Embracing Technology to Improve Patient Care

Wednesday, May 25, 2022

12 - 1 p.m. ET

1.0 CME offered at no cost

KEYNOTE SPEAKER

Kathleen Dungan, MD, MPH
Professor and Associate Director of Clinical Services
Division of Endocrinology, Diabetes & Metabolism
The Ohio State University

CLINICAL PRACTICE SPOTLIGHT

Megan Rasch, PharmD
Ambulatory Care Pharmacist
Five Rivers Health Centers

OBJECTIVES

- Define remote monitoring and technological options for diabetes management.
- Identify patient populations for whom remote monitoring is appropriate.
- Set up systems of care using remote monitoring for the intensification of diabetes management.

Clinical Pearls for Practice

Medication Access: Assisting Patients with Financial Barriers

Did You Know?

Medication cost is one of the most common patient barriers to medication access. Patients may experience barriers related to cost based on their insurance type, local pharmacy, or formulary coverage of the prescribed medication.

Learn about resources to assist with medication-related financial barriers.

Last Call! QI Opportunity

Heart Healthy Ohio Initiative Quality Improvement Project (QIP)

Limited slots remain for primary care practices interested in participating in a statewide QI initiative centered on improving blood pressure control, smoking rates, and disparity reduction. Deadline to participate is May 13, 2022.

Visit hearthealthyohio.org/hhoi-qip for more information.

The initiative is in partnership with Cardi-OH and the Ohio Academy of Family Physicians.
