

Cardi-OH Update

The Ohio Cardiovascular Health Collaborative (Cardi-OH) is a statewide initiative of health care professionals who share knowledge to improve Medicaid patient outcomes and eliminate health disparities across Ohio.

CAPSULE NEW!

Capsules provide busy clinicians brief summaries of best practices that are ready to be implemented in clinical care.

Did you know?

Did you know that more than 1/3 of US adults have 'basic' or 'below basic' health literacy?

Check out the latest!

Tips for Engaging Patients With Low Health Literacy

[CLICK TO VIEW →](#)

The thumbnail shows a document titled "APRIL 2020 - CAPSULE" and "Tips for Engaging Patients With Low Health Literacy". It lists contributing authors: Joseph Tisdale, PhD, and Joseph Lapinski, PhD, on behalf of Team Best Practices. The document includes a video player showing a woman and a man in a clinical setting. It also lists three key strategies for engaging patients with low health literacy: 1. Focus on key messages and repeat them verbally several times, 2. Use "teach back" techniques, and 3. Use appropriate educational materials. A small CARDI-OH logo is in the top right corner.

Tune in to Cardio-OH Radio

Podcasts highlight national, state and local leaders discussing timely topics for primary care clinicians.

Listen to the second in a series of quality improvement education podcasts designed for primary care practice teams.

Fall 2020 TeleECHO Clinic Update

Cardi-OH has partnered with Project ECHO® to support primary care providers to safely and effectively treat cardiovascular disease and diabetes.

Using simple video conferencing technology and case-based learning, Cardi-OH ECHO creates a unique partnership between community healthcare providers and a team of multidisciplinary specialists from Ohio's leading medical centers.

View the flyer for the upcoming Fall 2020 TeleECHO Clinic, Tackling Type 2 Diabetes featuring Kathleen Dungan, MD, MPH. Registration opens Summer 2020.
